Dermatological Clinical Training was conducted for the 5th- and 6th-year students in FY 2015, as usual. In the two-week training for the 5th-year students, each student was put in charge of a patient in the hospital in-patient ward of the Department of Dermatology. They also took medical histories for first-visit patients at the outpatient clinic. The training placed importance on clinical clerkships. The students were busy attending seminars, clinico-pathological conferences and lectures by staff doctors. I believe that the training was fulfilling and rich in content. There were requests mainly for surgical observation and research activities. A flexible training program to answer such requests was provided.

Six-week training was done for each 6th-year student. A total of 7 students who elected to receive their training at

2015年度も例年通り、5年生と6年生を対象とした皮膚科臨床実習を行いました。5年生は2週間の実習期間中、実際に皮膚科入院病棟で担当症例の主治医となり、外来初診患者の病歴聴取も行うなど、クリニカルクラークシップを重視した内容です。そのほかセミナーや、症例検討会、スタッフからの講義など、中身の濃い充実した皮膚科臨床実習を行いました。手術や研究など興味のある分野を重点的に見てみたいというリクエストもあり、フレキシブルに対応可能な実習プログラムを取り入れています。

一方、6年生は長期実習選択科として皮膚科を希望した7名がそれぞれ6週間ずつ実習しました。皮膚科の臨床だけでなく、皮膚病理や研究など、こちらも希望に沿う形でフレキシブルなプログラム構成

the Department of Dermatology participated. The program for 6th-year students was also flexible and tailored to the wishes of the participants. Not only did they experience the clinical activities of the Department of Dermatology, but they were also involved in research on dermatopathology and other areas. For the FY2016 program, all the staff of the department will strive to make the program even more fulfilling and interesting, in line with the wishes and opinions of the students.

を行いました。2016年度も、学生さんから希望や改善点を参考に、より充実した中身の濃い皮膚科臨床実習になるようスタッフ一同、努力していきたいと思ひます。
